SOFTWARE ENGINEERING PROJECTS

Software Engineering Immersive | General Assembly

June 2022 - Dec 2022

Successfully completed 500+ hours of expert-led instruction in the industry's most in-demand technologies such as JavaScript, Python, Node.js, React and many more. Developed projects include:

- [Super Mario Saiyans](#) - a classic 2D sidescroller built with HTML5 Canvas & JavaScript
 - [GitHub repository](#)
- [SongSearch](#) - Node.js app built off of Genius' API
 - [GitHub repository](#)
- Generous - A full MERN stack application(MongoDB, Express.js, React, Node.js) my team and I built around a nonprofit API
 - GitHub repository([frontend](#)/[backend](#))
- P4

PROFESSIONAL EXPERIENCE

Peerless Lending

August 2021 - December 2022

Mortgage Loan Officer Assistant

- Earned state of California NMLS license - Underwent months of dedicated study on top of usual day-to-day job responsibilities in order to acquire a deeper understanding of the industry and pass the state licensing exam
- Collaborative environment - Became very familiar with working in a team oriented environment where communicating effectively was critical

Annesso (Server)

June 2021 - October 2021

- Experience managing multiple responsibilities while being able to prioritize and execute tasks in the most efficient order
- Developed a keen sense of time management, learning how to assess the time demands of certain tasks and factor that into the requirements of an overall objective
