Python  
Django  
AWS  
PostgreSQL  
JavaScript  
REST API's  
ReactJS  
NodeJS  
ExpressJS  
Git  
HTML  
CSS  
Flask  
SQL  
MongoDB

## EXPERIENCE

### Python Developer at The Arch of San Diego

July 2023 - October 2023

- Engineered automated scripts using Python and Pandas to streamline the reconciliation process of financial data from Excel, leading to a substantial reduction in manual effort and a marked increase in accuracy.
- Enhanced administrative efficiency and delivered a simplified experience for HR management tasks, by implementing a user-friendly Human Resources dashboard leveraging Django.

## SOFTWARE ENGINEERING PROJECTS

### See my website for additional information on these projects.

June 2022 - Current

- **Airhouse-Clone** - An inventory management dashboard on one end, a connected customer facing shop on the other. Built with Django, AWS RDS, PostgreSQL and Bootstrap.
  - [Github Repository](#)
- **DevMeme** - A social media site for meme posting utilizing Django, PostgreSQL, and AWS. Users can post memes, customize their profiles, and interact with other users.
  - [Github Repository](#)
- **TalkTotal** - A chat room based site built with Python Django. Users can create or join rooms based on different topics and leave messages in each room, which other users can see.
  - [Github repository](#)
- **SongSearch** - Node.js app built off of Genius' API that allows user to search for any song or artist and curate a lists of their favorite or most disliked songs.
  - [GitHub repository](#)
- **Super Mario Saiyans** - A classic 2D sidescroller built with HTML5, Canvas & JavaScript.
  - [GitHub repository](#)

## OTHER PROFESSIONAL EXPERIENCE

### Mortgage Loan Officer Assistant at Peerless Lending

August 2021 - December 2022

- Developed system of automated unique client emails to improve efficiency.
- Helped close over \$26 million in loans in 2022.
- Developed and maintained relationships with numerous loan officers, loan processors, real estate agents, and underwriters.
